

FINAL REPORT

RESEARCH GRANT: NARESA RG/87/B/10

TITLE OF PROJECT: STUDIES ON THE BIOLOGY AND CONTROL OF  
TORPEDOGRASS (PANICUM REPENS L.)

GRANTEE: J. P. N. R. CHANDRASENA B.Sc., Ph.D.  
Senior Lecturer in Botany (Weed Science)

ADDRESS: Department of Botany, University of Colombo,  
P.O. Box 1490, Colombo-3, Sri Lanka.

DATE OF AWARD BY NARESA: January, 1987

SIGNATURE OF GRANTEE:

*Nimal Chandrasena*

## CONTENTS

	pg
1. Abstract .....	2-3
2. Section 1:      Torpedograss ( <u>Panicum repens L.</u> )- A Review of its Biological Characteristics, Weed potential and Control .....	4-12
3. Section 2:      Studies on Growth, Development and Resource-Allocation of Torpedograss .....	13-26
4. Section 3:      Studies on Torpedograss control with lower rates and split-applications of Glyphosate .....	27-40
5. Section 4:      Fluazifop-butyl activity on perennial Torpedograss .....	41-48
6. Section 5:      Enhancement of Fluazifop-P toxicity to Torpedograss by Surfactant and Oil- Additive .....	49-58
7. Section 6:      Studies on Rhizome Carbohydrates of Torpedograss .....	59-67
8. References .....	68-73
9. List of Publications .....	74
10. Acknowledgements .....	75
11. Annexure I .....	76-80
