ACCELERATED MAHAWELI PROJECT
(Kotmale, Victoria, Moragahakanda,
Maduru Oya, Randenigala)

(July 1977 - December 1979)

W.G.S. WIMALASENA

1982

I N T R O D U C T I O N

The utilization of the water of the Mahaweli Ganga to solve some of the major problems like unemployment, self-sufficiency in rice, saving of foreign exchange on food imports and the supply of hydro power was studied as far back as 1964 and set out in a Master Plan in 1969, the implementation of which was spread over a 30 year period.

In order to solve the problems in a shorter period and to avoid the escalation of the cost of the project due to steeply rising rate of inflation, the government decided in 1977 to accelerate the implementation of this programme by carrying out simultaneously the five major projects, viz: Maduru Oya, Victoria, Randenigala, Moragahakanda and Kothmale which would be completed within the next 6 years.

The magnitude and scope of the project has given rise to a spate of literature covering many disciplines from Science and Technology to Social Sciences. It is in this context that this bibliography should prove a useful guide to the interested reader who wishes to keep abreast of the multi-faceted development of the Mahaweli Development Project.

This bibliography consists of books, published and unpublished reports, periodical articles and newspaper articles in both english and sinhalese covering the period July 1977 to December 1979.

A special scheme of classification is devised for this purpose. The bibliography is divided into 6 main sections, namely, Mahaweli, Kothmale, Victoria, Moragahakanda, Maduru Oya and Randenigala. Each main section is further divided into sub-sections under the headings General, Socio-economic conditions, Construction, Environment, Power, Agriculture and Irrigation. Within each heading entries are arranged alphabetically by author. Entries are consecutively numbered.

Bibliographic description provided for articles includes respectively author, title, journal name, volume, number, month, year of publication and page; and for books and reports author, title, place publisher, date and page.

Location of sources is indicated by means of symbols.

An author index arranged alphabetically in both english and sinhalese is also included.
