

**Study Of The Phenology Of Certain  
Selected Mangrove Genera In Southern  
Sri Lanka (Galle, Dondra and Rekawa)**

**Final Report.**

**Grant Number - RG/MAN/93/1/02**

**Dr. (Mrs) P.L.Hettiarachchi,  
Department of Botany,  
University of Sri Jayawardanepura,  
Gangodawila,  
Nugegoda.**

**G.W.N.T.Kumara,  
Department of Botany,  
University of Ruhuna,  
Matara.**

FR 0972

## **List of Maps**

1. Map of Sri Lanka locating Rekawa, Dondra, Galle and Negombo lagoons.
2. Distribution of mangrove vegetation and the location of study sites in Rekawa.
3. Distribution of mangrove vegetation and the location of study sites in Dondra.
4. Distribution of mangrove vegetation and the location of study sites in Galle.
5. Distribution of mangrove vegetation and the location of study sites in Negombo.

## List of Figures

1. Leafing, Flowering-fruiting cycles indicating parameters tested.
2. Leafing cycle of *Rhizophora* spp., *Bruguiera* spp. and *Ceriops tagal*.
3. Flowering and fruiting cycles of *Rhizophora* spp., *Bruguiera* spp. and *Ceriops tagal*.
4. Phenological and Climatic curves at Rekawa and Galle.
5. Phenological and Climatic curves at Dondra and Negombo.
6. Vegetative shoot and floral parts of *R. mucronata*.
7. Vegetative shoot and floral parts of *R. apiculata*.
8. Vegetative shoot and floral parts of *B. gymnorhiza*.
9. Vegetative shoot and floral parts of *B. sexangula*.
10. Vegetative shoot and floral parts of *C. tagal*.
- 11a - 11e Profile diagram of vegetation along transects RT<sub>1</sub>-RT<sub>5</sub> with elevation and some soil factors.
- 11a'- 11e' Distribution of vegetation along transects RT<sub>1</sub>-RT<sub>5</sub> of Rekawa lagoon.
- 11a''- 11e'' Variation of some edaphic factors along transects RT<sub>1</sub>-RT<sub>5</sub> of Rekawa lagoon.
- 12a and 12b Profile diagram of vegetation along transects DT<sub>1</sub> and DT<sub>2</sub> with elevation and some soil factors.
- 12a' and 12b' Distribution of vegetation along transects DT<sub>1</sub> and DT<sub>2</sub> of Dondra lagoon.
- 12a'' and 12b'' Variation of some edaphic factors along transects DT<sub>1</sub> and DT<sub>2</sub> of Dondra lagoon.
- 13a - 13c Profile diagram of vegetation along transects GT<sub>1</sub>-GT<sub>3</sub> with elevation and some soil factors.
- 13a'- 13c' Distribution of vegetation along transects GT<sub>1</sub>-GT<sub>3</sub> of Galle lagoon.
- 13a''-13c'' Variation of some edaphic factors along transects GT<sub>1</sub>-GT<sub>3</sub> of Galle lagoon.

## List of Table

1. Summary of data on phenological cycles.
2. Summary of data on phenological cycles.
3. Inflorescence data.
4. Floral characteristic and measurements.
- 5a. Data on the method of pollination and the period of stigma receptivity in *Rhizophora* species.
- 5b. Data on the method of pollination and the period of stigma receptivity in *Bruguiera* species.
- 5c. Data on the method of pollination and the period of stigma receptivity in *Ceriops tagal*.
6. List of flower visitors.
7. Percentage fruit formation observed in each pollination treatment.
8. List of species and their abundance in Rekawa.
9. List of species and their abundance in Dondra.
10. List of species and their abundance in Galle.
11. List of species and their abundance in Negombo.
